Mechema Chemicals International Corp.

Meng-Shiou Lee, Convener of the Audit Committee

March 22, 2023

Independent Auditor's Report

To: Mechema Chemicals International Corp.

Audit opinion

We have audited the individual balance sheets as of December 31, 2022 and 2021, and the individual statement of comprehensive income, individual statement of changes in equity, individual statement of cash flow, and notes to individual financial statements (including the summary of significant accounting policies) for the years then ended of Mechema Chemicals International Corp. ("Mechema").

In our opinion, the abovementioned individual financial statements present fairly, in all material respects, the individual financial position of Mechema as of December 31, 2022 and 2021, and its individual financial performance and its individual cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

Basis for the Opinion

We performed the audit according to the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and audit standards. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Individual Financial Statements section of our report. The auditors of the firm, subject to the independence regulations, have maintained independence from Mechema in accordance with the Code of Ethics and perform other obligations of such Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of the most significance in our audit of the individual financial statements of Mechema for the year 2022. These matters were addressed in the context of our audit of the individual financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters for the 2022 individual financial statements of Mechema are described as follows:

Income recognition

The sales income of battery cathode materials of Mechema accounts for approximately 49% of its operating income, primarily due to the concentrated source of major operating income and sales targets of the Company; therefore, the management may have pressure to achieve the estimated operating targets. We believe that the income recognition of the part has material effects on the Company's operations; therefore, we include the income recognition of the part in the key audit matter.

Our audit procedures are as follows:

1. The focus of testing income transactions is whether effective orders from customers are actually obtained for sales.
2. Tests performed for internal control include whether the execution of sales orders has corresponding orders placed by customers, whether sales orders are appropriately approved by supervisors, and whether the "shipping orders" have been approved by the supervisors of the department and signed for receipt by customers.
3. Send letters for inquiries to confirm whether relevant income truly exists.

Responsibilities of the Management and Those Charged with Governance for the Individual Financial Statements

Management is responsible for the preparation and fair presentation of the individual financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and for necessary internal control as management determines necessary to enable the preparation of individual financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the individual financial statements, the responsibilities of the management include assessing Mechema's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going

concern basis of accounting unless management either intends to liquidate Mechema or to cease operations or has no realistic alternative but to do so.

Those charged with governance, including the audit committee, are responsible for overseeing Mechema's financial reporting process.

Auditor's Responsibilities for the Audit of the Individual Financial Statements

Our objectives are to obtain reasonable assurance about whether the individual financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. The term "reasonable assurance" refers to a high level of assurance. Nevertheless, the audit performed according to the auditing standards cannot guarantee the discovery of material misstatements in the individual financial statements. Misstatements can arise from fraud or error. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the individual financial statements.

As part of an audit in accordance with the auditing standards, we exercise professional judgment and professional skepticism throughout the audit. We also:

1. Identify and assess the risk of material misstatement of the individual financial statements due to fraud or error, design and adopt appropriate countermeasures for the risks assessed, and obtain sufficient and appropriate audit evidence in order to be used as the basis for the opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain a necessary understanding of internal control concerning the inspection in order to design appropriate inspection procedures that are appropriate for the time being. The purpose, however, is not to effectively express opinions on the internal control of Mechema.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management level.

4. According to the audit evidence obtained, evaluate the appropriateness of the continuous operation accounting basis and whether events or circumstances possibly generating material concerns on the continuous operation ability of Mechema have significant uncertainty, and provide a conclusion thereto. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the individual financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. Nevertheless, future events or circumstances may cause Mechema to have no ability for continuous operation.
5. Evaluate the overall presentation, structure and content of the individual financial statements (including relevant notes) and whether the individual financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient and appropriate audit evidence for the financial information of individual entities of Mechema and provide opinions on the individual financial statements. We handle the guidance, supervision and execution of the audit and are responsible for preparing the opinion for Mechema.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the governance units with statements that we have complied with relevant matters that may reasonably be thought to bear on our independence, and we have also communicated with the governance units on all relationships and other matters (including relevant protective measures) that may be considered to affect the independence of auditors.

From the matters communicated with those charged with governance, we determine key audit matters in the audit of Mechema's 2022 individual financial statements and are. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Independent Auditor's Report
To: Mechema Chemicals International Corp.

Audit opinion

We have audited the consolidated balances sheet as of December 31, 2022 and December 31, 2021, and the consolidated statement of comprehensive income, consolidated statement of changes in equity, consolidated statement of cash flow, and notes to consolidated financial statements (including the summary of significant accounting policies) for the years then ended of Mechema and its subsidiaries (the "Mechema Group").

In our opinion, the abovementioned consolidated financial statements present fairly, in all material respects, the consolidated financial position of Mechema Group as of December 31, 2022 and 2021, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), IFRIC Interpretations (IFRIC), and SIC Interpretations (SIC) endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

Basis for the Opinion

We performed the audit according to the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and audit standards. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. The auditors of the firm, subject to the independence regulations, have maintained independence from the Mechema Group in accordance with the Code of Ethics and perform other obligations of such Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of Mechema Group for the year 2022. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters for the 2022 consolidated financial statements of Mechema Group are described as follows:

Income recognition

The sales income of battery cathode materials of Mechema Group accounts for approximately 47% of its operating income, primarily due to the concentrated source of major operating income and sales targets of the Group; therefore, the management may have pressure to achieve the estimated operating targets. We believe that the income recognition of the part has material effects on the Company's operations; therefore, we include the income recognition of the part in the key audit matter.

Our audit procedures are as follows:

1. The focus of testing income transactions is whether effective orders from customers are actually obtained for sales.
2. Tests performed for internal control include whether the execution of sales orders has corresponding orders placed by customers, whether sales orders are appropriately approved by supervisors, and whether the "shipping orders" have been approved by the supervisors of the department and signed for receipt by customers.
3. Send letters for inquiries to confirm whether relevant income truly exists.

Other Matters

Mechema Chemicals International Corp. has prepared the individual financial statements for 2022 and 2021, to which we have also issued an independent auditor's report with an unqualified opinion along with the section on other matters and provided for reference.

Responsibilities of the Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the IFRS, IAS, IFRIC, and SIC endorsed and issued into effect by the Financial Supervisory Commission of the R.O.C., and for necessary internal control as management determines it is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the responsibilities of the management include assessing Mechema Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the

going concern basis of accounting unless management either intends to liquidate Mechema Group or to cease operations or has no realistic alternative but to do so.

Those charged with governance, including the audit committee, are responsible for overseeing Mechema Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. The term "reasonable assurance" refers to a high level of assurance. Nevertheless, the audit performed according to the auditing standards cannot guarantee the discovery of material misstatements in the consolidated financial statements. Misstatements can arise from fraud or error. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the consolidated financial statements.

As part of an audit in accordance with the auditing standards, we exercise professional judgment and professional skepticism throughout the audit. We also:

1. Identify and assess the risk of material misstatement of the consolidated financial statements due to fraud or error, design and adopt appropriate countermeasures for the risks assessed, and obtain sufficient and appropriate audit evidence in order to be used as the basis for the opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain a necessary understanding of internal control concerning the inspection in order to design appropriate inspection procedures that are appropriate for the time being. The purpose, however, is not to effectively express opinions on the internal control of Mechema Group.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management level.
4. According to the audit evidence obtained, evaluate the appropriateness of the continuous operation accounting basis and whether events or circumstances possibly generating material concerns on the continuous operation ability of Mechema Group have significant uncertainty, and provide a conclusion thereto. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. Nevertheless, future events or circumstances may cause Mechema Group to have no ability for continuous operation.
5. Evaluate the overall presentation, structure and content of the consolidated financial statements (including relevant notes) and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient and appropriate audit evidence for the financial information of individual entities of Mechema Group and provide opinions on the consolidated financial statements. We handle the guidance, supervision and execution of the audit and are responsible for preparing the opinion for the Mechema Group.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the governance units with statements that we have complied with relevant matters that may reasonably be thought to bear on our independence, and we have also communicated with the governance units on all relationships and other matters (including relevant protective measures) that may be considered to affect the independence of auditors.

From the matters communicated with those charged with governance, we determine key audit matters in the audit of Mechema Group's 2022 consolidated financial statements and are. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Article 1

In order to establish a good governance system for the shareholders' meeting of the Company, improve the supervision function and strengthen the management function, the Rules are formulated in accordance with Article 5 of the Corporate Governance Best Practice Principles for TWSE/TPEX Listed Companies for compliance.

Article 2

Unless otherwise provided by laws and regulations, the shareholders' meeting of the Company shall be handled in accordance with the Rules.

Article 3 (Convening and notice of shareholders' meeting)

Unless otherwise provided in laws and regulations, the shareholders' meeting of the Company shall be convened by the Board of Directors.

The change of the convening method of the shareholders' meeting of the Company shall be decided by the board meeting, and the change shall be made before the notice of the shareholders' meeting is sent at the latest.

The Company shall, 30 days before the annual shareholders' meeting or 15 days before the extraordinary shareholders' meeting, prepare an electronic file containing the notice of the shareholders' meeting, the form of the proxy form, the relevant recognition cases, discussion cases, selection or dismissal of Directors, and reasons and explanations of the proposals, and transmit it to the MOPS. The Company shall also, 21 days before the annual shareholders' meeting or 15 days before the extraordinary shareholders' meeting, prepare an electronic file containing the handbook and supplementary information of the shareholders' meeting, and transmit it to the MOPS. However, if the paid-in capital of the Company at the end of the most recent fiscal year reaches NT\$10 billion, or if the total shareholding ratio of foreign and mainland capital recorded in the shareholders' register of the annual shareholders' meeting held in the most recent fiscal year reaches 30 percent, the electronic file transmission shall be completed 30 days before the annual shareholders' meeting.

15 days before the shareholders' meeting, the Company shall make available the handbook and supplementary information of the meeting for the shareholders to read at any time; the Company shall also have them displayed at the Company and the professional stock affairs agency appointed by the Company.

The Company shall, on the day of the shareholders' meeting, provide shareholders with the handbook and supplementary meeting data referred to in the preceding paragraph in the following ways:

- I. When a physical shareholders' meeting is held, it shall be distributed at the shareholders' meeting site.
- II. When a video-assisted shareholders' meeting is held, it shall be distributed on the site of the shareholders' meeting and transmitted to the video conference platform in electronic files.
- III. When a video shareholders' meeting is held, it shall be transmitted to the video conference platform in electronic files.

The meeting notice and announcement shall state the convening reason; if agreed by the counterparty, the meeting notice may be delivered electronically.

The election or dismissal of Directors, changes to the articles of association, capital reduction, application for suspension of public offering, removal of Director's non-competition

restriction, capital increase from earnings, capital increase from reserve, company dissolution, merger, division, or all circumstances in paragraph 1, Article 185 of the Company Act shall be listed under the convening reasons with a description of the main contents of the matters, and shall not be proposed as an extempore motion.

If the reason for convening the shareholders' meeting has stated a full re-election of Directors and the date of assuming office, then after the re-election is completed at the shareholders' meeting, the date of assuming office may not be further changed via an extempore motion or other means.

Any shareholder holding more than 1% of the total issued shares may submit to the company in writing a proposal for the annual shareholders' meeting. However, each such shareholder is limited to making only one proposal; otherwise, the excess proposals will not be included in the agenda. However, if the shareholder's proposals are to urge the Company to promote public interests or fulfill social responsibilities, the Board of Directors may still include them in the proposal. In addition, the Board of Directors may not list the proposal from a shareholder in case of any of the circumstances in item 4, Article 172-1 of the Company Act. The Company shall, before the book-close date of the annual shareholders' meeting, announce the acceptance of proposals, the written or electronic method accepted, and the location and period of acceptance; the period of acceptance shall not be less than 10 days.

The proposal made by a shareholder is limited to 300 words, and those exceeding 300 words will not be included in the agenda; the proposing shareholder shall either attend the annual shareholders' meeting personally or entrust an agent to attend, and participate in the discussion of the proposal.

The Company shall notify the proposing shareholder of the results of the acceptance before the date the convening notice is sent and shall include in the meeting notice the proposals compliant with the requirements of the article. For shareholders' proposals not included in the agenda, the Board of Directors shall explain the reasons for non-inclusion.

Article 4

At each shareholder's meeting, the shareholder may issue a proxy form in the form printed by the Company to specify the scope of authorization, sign or seal it, and entrust an agent to attend.

Each shareholder is limited to issuing one proxy form and entrusting only one person and shall have a proxy form delivered to the Company five days before the date of the shareholders' meeting. If the entrustment is repeated, the first one delivered shall prevail. However, the above does not apply if a declaration is made on the revocation of the entrustment previously delivered.

After a proxy form is delivered to the Company, if the shareholder wishes to attend the shareholders' meeting personally or wishes to exercise voting rights in written or electronic form, a notice of revocation shall be delivered to the Company in writing two days before the date of the shareholders' meeting; if a proxy form is canceled after the time limit, the voting rights exercised by the entrusted agent shall prevail.

After a proxy form is delivered to the Company, if the shareholder wishes to attend the shareholders' meeting by video, a notice of revocation shall be delivered to the Company in writing two days before the date of the shareholders' meeting; if a proxy form is canceled after the time limit, the voting rights exercised by the entrusted agent shall prevail.

Article 5 (Principles of the place and time of the shareholders' meeting)

The venue for a shareholders' meeting shall be in the city or county where the premises of the Company are located or a place easily accessible by shareholders and suitable for a shareholders' meeting. The meeting may begin no earlier than 9 a.m. and no later than 3 p.m. The opinions of Independent Directors on the place and time of the meeting shall be fully considered.

When the Company holds a video shareholders' meeting, it is not subject to the restrictions on the place of the meeting in the preceding paragraph.

Article 6 (Preparation of the signature book and other documents)

The Company shall specify in the meeting notice the time and place for accepting the registration of shareholders, solicitors and entrusted agents (hereinafter collectively referred to as shareholders) and other matters needing attention.

The time for the shareholder's registration referred to in the preceding paragraph shall be at least 30 minutes before the meeting; the registration office shall be clearly marked, and sufficient qualified personnel shall be sent to handle the registration. For a video conference of the shareholders' meeting, the acceptance of registration shall start 30 minutes before the meeting at the video conference platform of the shareholders' meeting. The shareholders who complete the registration shall be deemed to be present at the shareholders' meeting in person.

The shareholder shall attend the shareholders' meeting based on the attendance card, sign-in card or other attendance certificates. The company shall not arbitrarily add other supporting documents to the certification documents based on which the shareholders attend the meeting. The solicitor of the proxy form for attending the meeting shall carry an identity certificate for verification.

The company shall prepare a sign-in book for the attending shareholders to sign in, or the attending shareholders may submit their sign-in cards for signing in.

The Company shall deliver the meeting handbook, annual report, attendance card, speech slip, voting ballots and other meeting materials to the shareholders present at the shareholders' meeting; if there is a re-election of Directors, the electing ballots shall also be attached.

When the government or a legal person is a shareholder, the number of its representatives present at the shareholders' meeting is not limited to one. When a legal person is entrusted to attend the shareholders' meeting, only one representative may be appointed to attend.

If the shareholders' meeting is held in the form of a video conference, shareholders who wish to attend by video shall register with the Company two days before the shareholders' meeting. If the shareholders' meeting is held in the form of a video conference, the Company shall upload the meeting handbook, annual report and other relevant materials to the video conference platform of the shareholders' meeting at least 30 minutes before the meeting, and continue to disclose them until the end of the meeting.

Article 6-1 (Matters to be included in the notice of convening a shareholders' meeting by video)

When the Company holds the shareholders' meeting in the form of a video conference, the following matters shall be specified in the notice of convening the shareholders' meeting:

- I. Methods for shareholders to participate in video conferences and exercise their rights.
- II. The method of dealing with obstacles caused by natural disasters, incidents or other *force majeure* to the video conference platform for participation in the video conference shall at least include the following:
 - (I) The time of the postponed or resumed meeting due to the continuation of the obstacle before the meeting, which cannot be eliminated, and the date of the meeting to be postponed or resumed if necessary.
 - (II) Shareholders who have not registered to participate in the original shareholders' meeting by video shall not participate in the postponed or resumed meeting.
 - (III) If a video-assisted shareholders' meeting cannot be resumed, the shareholders' meeting shall be continued if the total number of shares present at the shareholders' meeting reaches the quorum of the shareholders' meeting after deducting the number of shares present at the shareholders' meeting by video. The number of shares present at the shareholders' meeting by video shall be counted into the total number of shareholders' shares present, and all proposals of the shareholders' meeting shall be deemed to have been waived.
 - (IV) The handling method in the event that all motions have been announced, but no

extempore motion has been made.

- III. If the shareholders' meeting is held by video, the appropriate alternative measures shall be specified for the shareholders who have difficulty participating in the shareholders' meeting by video.

Article 7 (Chairperson of the shareholders' meeting and non-voting participants)

If the Board of Directors convenes the shareholders' meeting, the Chairman shall serve as the chairperson of the meeting. When the Chairman is on leave or unable to perform his duties for some reason, the Vice Chairman shall act as his proxy. When there is not a Vice Chairman or the Vice Chairman is also on leave or unable to perform his duties for any reason, the Chairman shall designate a Managing Director to act as his proxy. When there are no Managing Directors, a Director shall be designated as the proxy; if the Chairman does not appoint a proxy, the Managing Directors or the Directors shall elect one among themselves as the proxy.

The meeting chairperson referred to in the preceding paragraph shall be a Managing Director or Director who has served for more than six months and has knowledge of the Company's financial and business conditions. The same applies if the chairperson is the representative of a corporate Director.

At the shareholders' meeting convened by the Board of Directors, the Chairman of the Board shall personally preside over the meeting, and at least one representative of each functional committee shall attend the meeting; the attendance status shall be recorded in the minutes of the shareholders' meeting.

If the shareholders' meeting is convened by a person with the power to convene other than a member of the Board of Directors, the convener shall be the chairperson of the meeting. If there are two or more conveners, one of them shall be elected to be the chairperson.

The Company may appoint its designated lawyers, accountants or related personnel to attend the shareholders' meeting as non-voting delegates.

Article 8 (Audio or video recording of the shareholders' meeting process)

The Company shall continuously audio and video record the whole process of shareholders' registration, meeting, and vote counting from the time of accepting the registration of shareholders.

The audio and video recording shall be kept for at least one year. However, if a shareholder initiates a lawsuit in accordance with Article 189 of the Company Act, the recording shall be kept until the end of the lawsuit.

Article 9

Attendance at shareholders' meetings shall be calculated based on the number of shares. The number of shares present shall be calculated according to the number of shares registered in the signature book or the sign-in cards submitted, plus the number of shares exercising voting rights in writing or electronically.

The chairperson shall call the meeting to order at the specified meeting time, and at the same time announce relevant information such as the number of non-voting rights and the number of shares present. However, when the attending shareholders do not represent a majority of the total number of issued shares, the chairperson may announce a meeting postponement, provided that the number of such postponements is no more than two and the total time no more than one hour. If the attending shareholders still do not represent one-third of the total number of issued shares after two postponements, the chairperson shall declare the meeting aborted.

If the quorum is still not met after two postponements as referred to in the preceding paragraph, but the attending shareholders represent one-third or more of the total number of issued shares, a tentative resolution may be adopted pursuant to paragraph 1, Article 175 of the Company Act, and all shareholders shall be notified of the tentative resolution and another shareholders' meeting shall be convened within one month.

Prior to the conclusion of the meeting, if the attending shareholders represent a majority of the total number of issued shares, the chairperson may resubmit the tentative resolution for voting at the shareholders' meeting pursuant to Article 174 of the Company Act.

Article 10 (Discussion of proposals)

If a shareholders' meeting is convened by the Board meeting, the meeting agenda shall be set by the Board meeting, and the resolutions of related motions (including extraordinary motions and amendments to original motions) shall be made on a case-by-case basis by voting. The meeting shall proceed in the order set in the agenda, which may not be changed without a resolution of the shareholders' meeting.

If the shareholders' meeting is convened by a convening party other than the Board of Directors, the provisions of the preceding paragraph shall apply.

The chairperson may not declare the meeting adjourned prior to the completion of the meeting agenda (including extraordinary motions) of the preceding two paragraphs except by a resolution of the shareholders' meeting. If the chairperson declares the meeting adjourned in violation of the rules of procedure, the other members of the Board of Directors shall promptly assist the attending shareholders in electing a new chairperson in accordance with statutory procedures, and then continue the meeting based on the agreement of a majority of the votes represented by the attending shareholders.

The chairperson shall allow ample opportunities during the meeting for explanation and discussion of motions and their amendments or extraordinary motions put forward by the shareholders; when the chairperson is of the opinion that a motion has been discussed sufficiently for voting, the chairperson may announce a cessation of the discussion and call for a vote, and arrange sufficient time for voting.

Article 11 (Shareholders' speeches)

Before speaking, an attending shareholder shall specify on the speaker's slip his/her speech summary, shareholder account number (or attendance card number) and account name. The order in which shareholders speak shall be set by the chairperson.

A shareholder in attendance who has submitted a speaker's slip but does not actually speak shall be deemed to have not spoken. When the contents of the speech do not correspond to the subject given on the speaker's slip, the content of the speech shall prevail.

Without the consent of the chairperson, each shareholder who speaks on the same motion shall not speak more than twice, and the speech each time shall not exceed five minutes. If the shareholder's speech violates the rules above or exceeds the scope of the agenda item, the chairperson may terminate the speech.

When an attending shareholder is speaking, other shareholders may not speak or interrupt unless they have sought and obtained the consent of the chairperson and the shareholder that has the floor; the chairperson shall stop any violations.

When a legal person shareholder appoints two or more representatives to attend a shareholders' meeting, only one of the representatives appointed may speak on the same proposal.

After an attending shareholder has spoken, the chairperson may respond in person or direct relevant personnel to respond.

Article 12 (Calculation and avoidance system of voting shares)

The voting at shareholders' meetings shall be calculated based on the number of shares.

The shares held by shareholders with no voting rights shall not be counted in the total number of issued shares while adopting a resolution at the shareholders' meeting.

When a shareholder has personal interests in items at the meeting which may cause harmful results to the interests of the Company, he shall not participate in the voting and shall not exercise voting rights on behalf of other shareholders.

The number of shares that may not exercise voting rights referred to in the preceding paragraph shall not be counted in the number of voting rights of the shareholders present.

Except for trust enterprises or stock agencies approved by the competent securities authority, when a person acts as the proxy for two or more shareholders, the number of voting rights represented by him/her shall not exceed 3% of the total number of voting shares of the Company. Otherwise, the portion of excessive voting rights shall not be counted.

Article 13

Each shareholder has one voting right per share, but this does not apply to those who are restricted or have no voting rights as specified in paragraph 2, Article 179 of the Company Act.

When the Company holds a shareholders' meeting, it shall have the voting rights exercised by electronic means or in writing; when the voting rights are exercised in writing or by electronic means, the exercise method shall be specified in the notice of the shareholders' meeting. The shareholders who exercise the voting rights in writing or by electronic means shall be deemed to attend the shareholders' meeting in person. However, for extempore motions and amendments to the original motions of the shareholders' meeting, such shareholders shall be deemed to have waived their voting rights. Therefore, the Company should avoid the proposal of extempore motions or amendments to the original motions.

If the voting rights are exercised in writing or by electronic means, as in the preceding paragraph, the intention of the said expression shall be delivered to the Company two days before the shareholders' meeting. If the intention is repeated, the first one delivered shall prevail. However, the above does not apply if a declaration is made on the revocation of the intention previously delivered.

After the shareholder exercises the voting right in writing or by electronic means, if he wants to attend the shareholders' meeting in person or by video, he shall make a revocation of the intention previously delivered in the same manner as the revocation of the voting intention in the previous paragraph two days before the shareholders' meeting; if the revocation is made after the deadline, the voting right exercised in writing or by electronic means shall prevail. If the voting right is exercised in writing or by electronic means and the agent entrusted via a proxy form is present at the shareholders' meeting, the voting right of the entrusted agent shall prevail.

Unless otherwise provided by law or the Company's Articles of Association, a proposal shall be approved with the consent of more than half of the voting rights of the shareholders present. When voting, the chairperson or its designated person shall announce the total number of voting rights of the shareholders present, and the shareholders shall vote on a proposal-by-proposal basis. The results of shareholders' consent, objection and waiver shall be entered into the MOPS on the day after the shareholders' meeting.

When there is an amendment or replacement to a proposal, the chairperson shall determine the order of voting together with that of the original proposal. If one of the proposals is approved, the other proposals shall be deemed to be rejected, and no more voting shall be needed.

The persons who supervise and calculate the votes on proposals shall be appointed by the chairperson, but the vote supervisor shall have the status of shareholder.

The counting of voting or election results at the shareholders' meeting shall be conducted in a public place in the shareholders' meeting. After the counting is completed, the voting results shall be announced on the spot, including the statistical weights, and be recorded.

If the Company holds the shareholders' meeting in the form of a video conference, after the chairperson calls the meeting to order, the shareholders participating by video shall vote on various proposals and election proposals through the video conference platform, and shall complete the voting before the chairperson announces the end of the voting. If the voting is delayed, they shall be deemed to have abstained.

If the shareholders' meeting is convened in the form of a video conference, the votes shall be counted in one go after the chairperson announces the end of voting, and the voting and election results shall be announced.

When the Company holds the video-assisted shareholders' meeting, the shareholders who

have registered to attend the shareholders' meeting by video in accordance with Article 6 and want to attend the physical shareholders' meeting in person shall cancel the registration in the same way as for the registration two days before the shareholders' meeting; if the cancellation is overdue, the shareholders' meeting can only be attended by video.

Those who exercise their voting rights in writing or by electronic means, have not withdrawn their expression of intention, and have participated in the shareholders' meeting by video shall not exercise their voting rights on, except for temporary motions, the original motion or propose amendments to the original motion, or exercise their voting rights on the amendments to the original motion.

Article 14 (Election)

When there is an election of Directors at the shareholders' meeting, it shall be handled in accordance with the relevant election rules prescribed by the Company, and the election results shall be announced on the spot, including the list of elected Directors and their number of voting rights, and the list of candidates not elected and their number of voting rights. The ballots for the election referred to in the preceding paragraph shall be sealed and signed by the monitoring personnel and properly kept for at least one year. However, if a shareholder initiates a lawsuit in accordance with Article 189 of the Company Act, the recording shall be kept until the end of the lawsuit.

Article 15

The resolutions of the shareholders' meeting shall be recorded in the meeting minutes, signed or sealed by the chairperson, and distributed to the shareholders within 20 days after the meeting. The production and distribution of the shareholders' meeting minutes may be conducted by electronic means.

For the distribution of the shareholders' meeting minutes, the Company may make a public announcement by entering the information on the MOPS.

The minutes shall be taken in the order of the date, place, name of the chairperson, resolution method, essentials of the proceedings and voting results (including the number of voting rights), and the number of voting rights received by each candidate shall be disclosed when there is an election of Directors and supervisors. The minutes shall be kept permanently during the existence of the Company.

If the shareholders' meeting is held in the form of a video conference, in addition to the items required to be recorded in accordance with the preceding paragraph, the minutes shall record the start and end time of the shareholders' meeting, the method of holding the meeting, the name of the chairperson and the recorder, appropriate alternative measures provided to shareholders who have difficulties in participating in the shareholders' meeting by video, and the handling methods and results in case of obstacles to the video conference platform or participation by video due to any natural disaster, incident or other *force majeure*.

If convening a shareholders' meeting in the form of a video conference, the Company shall, in addition to the provisions of the preceding paragraph, specify in the minutes the alternative measures provided to shareholders who have difficulties in participating in the shareholders' meeting by video.

Article 16 (Public announcements)

The Company shall clearly disclose in the meeting venue and in the prescribed format the number of shares acquired by solicitors, the number of shares represented by entrusted agents and the number of shares of shareholders attending in writing or electronically on the day of the meeting. If the shareholders' meeting is held by video conference, the Company shall upload the information above to the video conference platform for the shareholders' meeting at least 30 minutes before the meeting, and continue to disclose it until the end of the meeting. When the shareholders' meeting is held in the form of a video conference, the Company shall disclose on the video conference platform the number of shareholders' rights present when the meeting is called to order. The same applies if there are other statistics on the total number of

shares held by the shareholders present and the number of voting rights.

If the resolution of the shareholders' meeting contains any material information stipulated by law and provided by the Taiwan Stock Exchange Co., Ltd. (or the Taipei Exchange), the Company shall transmit the contents to the MOPS before the specified deadline.

Article 17 (Maintenance of the order of the venue)

The meeting affair staff of the shareholders' meeting shall wear identification cards or armbands.

The chairperson may command the picket or security personnel to assist in maintaining the order of the meeting venue. When assisting in maintaining order, the picket or security personnel shall wear an armband or identification card with the word "picket."

If sound amplification equipment is available at the meeting venue, the chairperson may stop shareholders from speaking if they speak on equipment not prepared by the Company.

If a shareholder violates the rules of procedure and fails to comply with the chairperson's correction, and hinders the meeting from proceeding, the chairperson may direct the picker or the security personnel to ask him to leave the meeting venue.

Article 18 (Break and meeting resumption)

When the meeting is in progress, the chairperson may announce a break at his discretion. In case of *force majeure*, the chairperson may rule to suspend the meeting and announce the time for continuation of the meeting as the case may be.

Before the conclusion of the proceedings (including extempore motions) scheduled for the shareholders' meeting, if the venue for the meeting cannot continue to be used, another venue may be found to continue the meeting upon the resolution of the shareholders.

The shareholders' meeting may, in accordance with Article 182 of the Company Act, decide to postpone or renew the meeting within five days.

Article 19 (Information disclosure of video conference)

If the shareholders' meeting is held in the form of a video conference, the Company shall immediately disclose the voting results of various proposals and election results on the video conference platform of the shareholders' meeting after the voting is completed, and shall continue to disclose them for at least 15 minutes after the chairperson announces the adjournment of the meeting.

Article 20 (Location of the chairperson and minute taker of the video shareholders' meeting)

If the Company holds the shareholders' meeting in the form of a video conference, the chairperson and the recorders shall be in the same place in Taiwan, and the chairperson shall announce the address of the place at the meeting.

Article 21 (Handling of signal interruption)

Where the shareholders' meeting is held by video, the Company may provide a simple connection test for shareholders before the meeting, and provide relevant services immediately before and during the meeting to assist in handling technical problems of communication.

If the shareholders' meeting is held in the form of a video conference, the chairperson shall, when calling the meeting to order, announce that there is no need to postpone or continue the meeting per paragraph 4, Article 44-20 of the Regulations Governing the Administration of Shareholder Services of Public Companies. Before the chairperson announces the adjournment of the meeting, if there is any obstacle to the video conference platform or participation by video for more than 30 minutes due to any natural disaster, incident or other *force majeure*, the provisions of Article 182 of the Company Act shall not apply if the meeting should be postponed or resumed within five days.

In the event of a postponed or resumed meeting referred to in the preceding paragraph, shareholders who have not registered to participate in the original shareholders' meeting by

video shall not participate in the postponed or resumed meeting.

If the meeting should be postponed or resumed in accordance with paragraph 2, for the shareholders who have registered to participate in the original shareholders' meeting by video and have completed their registration but have not participated in the postponed or resumed meeting, their number of shares present, voting rights and election rights exercised at the original shareholders' meeting shall be included in the total number of shares, voting rights and election rights of shareholders attending the postponed or resumed meeting.

When handling the postponed or resumed shareholders' meeting in accordance with paragraph 2, there is no need to re-discuss and adopt resolutions on the proposals for which the voting and vote counting have been completed, and the voting results or the list of elected Directors and supervisors has been announced.

When the Company holds a video-assisted shareholders' meeting, and it is impossible to resume the video meeting in paragraph 2, if the total number of shares present at the shareholders' meeting by video still meets the quorum of the shareholders' meeting after deducting the number of shares present at the shareholders' meeting by video, the shareholders' meeting shall continue without postponing or resuming the meeting in accordance with paragraph 2.

In the event that the meeting should be continued in accordance with the preceding paragraph, the number of shares represented by shareholders participating in the shareholders' meeting by video shall be included in the total number of shares represented by shareholders, but such shares shall be deemed to have abstained from all proposals at the shareholders' meeting.

When the Company postpones or resumes the meeting in accordance with paragraph 2, relevant pre-processing operations shall be handled in accordance with the provisions of paragraph 7 of Article 44-20 of the Regulations Governing the Administration of Shareholder Services of Public Companies and in accordance with the date of the original shareholders' meeting and the various provisions of the same Article.
